

# BioTrack Label Information

BioTrack is Stericycle's bespoke information system which automates the production of hazardous waste consignment notes and tracks each individual consignment of waste.

The barcode on each label holds data regarding producer information, type of waste, treatment requirements, ADR carriage requirements, and relevant UN number to ensure correct treatment and disposal of your healthcare waste.

## HI - Infectious waste for incineration

## HS - Infectious sharps

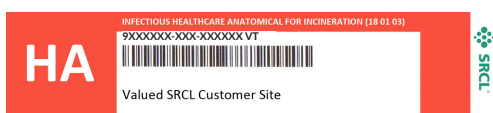

## HT - Infectious waste for treatment

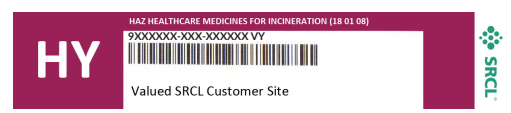

## HL - Non-hazardous waste

## HA - Infectious anatomical waste

## HY - Cytotoxic/ cytostatic waste

## HP - Non-hazardous medicines

## HD - Non-haz chemicals for recovery/incineration

## HW - Non-Hazardous Offensive Healthcare Waste for Recovery

Bins without tags will **NOT** be collected

A tag **MUST** be attached to every wheeled bin. It is recommended that this be done at the point of waste generation/collection by porter staff.
