

# Changes To Our Range Of Single-Use Sharps Units

At Stericycle we are continuously looking for ways to safeguard the environment. This includes regularly reviewing our offering of sustainable specialist waste management solutions.

With this in mind, we have taken the decision to reduce the range of different sized single-use sharps units that we offer. This change will take effect from 1st October 2019.

## What does this mean?

Over the coming weeks you may receive a different sized sharps unit from your Stericycle driver.

If your usual container size is no longer part of our core range we will endeavor to deliver the closest sized unit to ensure that all your waste can be stored in a safe and compliant manner.

**Please note there will be NO additional costs for larger units that may be supplied.**

Stay up to date with our latest sustainability initiatives, including plans to further reduce single-use plastics on our website.

## No action is required from you

However, should you have any questions or queries please contact our Customer Service Team:

**Tel: 0333 240 4400**
